## PLAY2LEARN INTAKE FORM

Thank you for taking the time to complete this form before you and your child visit.

Dear Parent,

We are very excited that you are interested in enrolling your child in our language play based social skill building program. In order to determine what group would best meet your child's needs, we need to gather information from you about him/her.

Groups are arranged according to maturity, age, and cognitive/social-emotional developmental skill set. Please note, a significant amount of effort goes into the organization of these groups. To ensure the highest level of progress for your child and because other clients are dependent on the commitment, it is important that you are committed to participating in the duration of the group.
